PHAM NGOC DONG

Middle .NET / FULL-STACK DEVELOPER

DOB: Nov 16, 1993 | **Phone:** (+84) 375 227 797 | **Email:** dong.orc12@gmail.com | **Location:** Hanoi, Vietnam | **GitHub:** github.com/orc123

PROFESSIONAL SUMMARY

Results-oriented Middle .NET / Full-stack Developer with over 6 years of hands-on experience architecting, developing, and optimizing scalable Enterprise systems, modern Web platforms, and high-throughput RESTful APIs within the Microsoft ecosystem (.NET Core, .NET 5/6/10, C#, SQL Server).

• Deep expertise in Clean Architecture, Domain-Driven Design (DDD), ABP.io Framework, Blazor (Server/WASM), and Angular (11-21).

• Strong background in relational database design, Stored Procedure tuning, indexing strategies, and high-load SQL optimization.

• Proficient in enterprise middleware integrations (HULFT 8 protocol) and multi-tenant architectures.

• Actively leverages AI engineering tools (LLMs, GitHub Copilot) to streamline software development life cycle, code quality, and delivery speed.

TECHNICAL SKILLS

• **Backend:** C#, .NET Core, .NET 5/6/8/10, ASP.NET Core Web API, ASP.NET MVC, ASP.NET WebForms, Entity Framework Core, Dapper, ABP.io Framework, Clean Architecture, DDD, Microservices patterns.

• **Frontend:** Angular (11, 12, 21), Blazor (Server & WASM), TypeScript, JavaScript (ES6+), HTML5/CSS3, Tailwind CSS, Bootstrap, jQuery, Phaser Engine.

• **Databases:** MS SQL Server (T-SQL, Stored Procedures, Index Tuning, Query Optimization), PostgreSQL, MySQL, MongoDB.

• **Tools & DevOps:** Visual Studio 2022, VS Code, Git, GitHub, TFS / Azure DevOps, Postman, Umbraco CMS, HULFT 8.

• **Methodologies:** Agile/Scrum, SOLID Principles, Design Patterns, Unit Testing, Code Review, AI-assisted Development.

PROFESSIONAL EXPERIENCE & FEATURED PROJECTS

DuanEcommerce – Enterprise E-Commerce Platform (DDD & Clean Architecture) | 2026

Company: PERSONAL RESEARCH & ARCHITECTURE • Role: Lead Developer / Solution Architect • Team Size: Personal Project

Tech Stack: .NET 10, ABP Framework, Angular 21, Entity Framework Core, SQL Server, RESTful APIs, Clean Architecture, DDD

• Designed the core end-to-end architecture based on Domain-Driven Design and Clean Architecture principles.

• Engineered scalable RESTful APIs for Product Catalog, Cart, Orders, Checkout, and Identity authorization.

• Developed a high-performance Single Page Application (SPA) utilizing Angular 21.

• Optimized database schemas, indexing strategies, and fine-grained role-based access controls.

SHTemple (OperaTicket Module & SHT Core Platform) | Dec 2023 – Sep 2025

Company: WIZTECH • Role: Middle .NET Developer • Team Size: 8 members

Tech Stack: Visual Studio 2022, ASP.NET WebForms 4.5 (.NET Framework), C#, jQuery, Bootstrap, SQL Server

• Analyzed client business requirements for reservation flows and real-time seat locking policies.

• Architected and implemented the interactive seat map grid with dynamic jQuery and Bootstrap styling.

• Engineered robust concurrency control logic to prevent double-booking issues during peak traffic.

• Tuned SQL Server Stored Procedures and eliminated legacy bugs, boosting system throughput and uptime.

Wiztech Corporate Portal & Invoice Module | Apr 2025 – May 2025

Company: WIZTECH • Role: .NET Developer • Team Size: 3 members

Tech Stack: ASP.NET MVC 4.5, Umbraco CMS, Visual Studio 2022, SQL Server, Bootstrap, jQuery

• Designed and implemented the 'Invoice Now' workflow for rapid billing generation.

• Customized and extended CMS administration modules using Umbraco.

• Refactored front-end and back-end logic to improve page loading speed and user experience.

Now App (School Bus Transit & Student Check-in Platform) | Dec 2022 – Mar 2023

Company: NEWWAVE SOLUTIONS • Role: .NET Developer • Team Size: 7 members

Tech Stack: .NET 5, ABP.io Framework, RESTful API, C#, PostgreSQL, Visual Studio 2022, VS Code

• Modeled PostgreSQL relational database schemas and built high-performance RESTful APIs.

• Implemented ABP.io multi-tenant and role management modules for secure access control.

• Authored unit tests and tuned API latency for reliable real-time mobile push notifications.

Beekin App (Emergency SOS Alert & Admin Web Portal) | Oct 2022 – Dec 2022

Company: NEWWAVE SOLUTIONS • Role: .NET & Angular Developer • Team Size: 6 members

Tech Stack: .NET 5, ABP.io, Angular, C#, RESTful API, Postman, Visual Studio 2022

• Developed full-stack features: .NET 5 REST APIs and responsive Angular Web Admin dashboard.

• Constructed real-time SOS incident logging, user case workflows, and audit trails.

• Conducted extensive API validation with Postman, ensuring zero critical bugs upon release.

NWS Internal App (Enterprise HR & Request Approval Portal) | Oct 2021 – Sep 2022

Company: NEWWAVE SOLUTIONS • Role: .NET & Angular Developer • Team Size: 6 members

Tech Stack: .NET 5, Angular, C#, RESTful API, MSSQL Server, Visual Studio 2019, VS Code

• Engineered MSSQL database structure and scalable Web API endpoints.

• Built an intuitive Angular Single Page Application with rich user interactions.

• Implemented multi-step automated approval workflows and periodic attendance reporting.

File Transfer System (HULFT Middleware Data Integration) | Mar 2022 – May 2022

Company: NEWWAVE SOLUTIONS • Role: Project Manager / Technical Lead (.NET & Angular) • Team Size: 5 members

Tech Stack: .NET 6, Angular 12, HULFT 8 Middleware, C#, MSSQL Server, Visual Studio 2022

• Led 5-member development team as Project Manager, overseeing technical roadmap and delivery.

• Designed architecture bridging .NET 6 Web APIs with HULFT 8 secure file transfer services.

• Developed Angular 12 real-time monitoring dashboard to track transmission logs and alerts.

• Enforced code quality standards and resolved critical technical bottlenecks.

Abacus & Internal Performance System | Oct 2020 – Aug 2021

Company: KLOON • Role: .NET / Full-stack Developer • Team Size: 8 members (Abacus) / 3 members (Internal)

Tech Stack: .NET 5.0 API, Blazor Server & WASM, Angular 11, DevExpress, SQL Server 2018, TFS

• Contributed to database partitioning and multi-tenant security architecture.

• Engineered modern management interfaces utilizing Blazor (Server & WASM) with DevExpress controls.

• Built employee evaluation and timesheet logging modules using Angular 11 and .NET 5.0 API.

• Conducted unit testing and optimized complex data reporting queries.

Blended Learning & Cloud Tester System (ose.edu.vn) | Jul 2017 – Jun 2020

Company: VPBOX • Role: Web & Educational Software Developer • Team Size: 4 members

Tech Stack: ASP.NET MVC 4.5, C#, Phaser Engine (HTML5 Game), SQL Server 2014, Git, Video Streaming

• Designed database schemas for multimedia question banks, exams, and student performance logs.

• Programmed interactive educational mini-games using HTML5 Phaser Game Engine.

• Built automated evaluation engines and teacher grading tools for Speaking/Writing tests.
• Implemented automated bulk scoring, ranking, and instant email dispatch mechanisms.

EDUCATION & CERTIFICATIONS

• **Bachelor of Information Technology – Hanoi University of Science and Technology (HUST)** (2011 – 2016 (Degree conferred 2017))
• **TOEIC Certificate: 465** (2016)
